3. PERSONNEL

(a) 2,000 S.A.F. are estimated to be at the airfield.

(b) Of these, 400 are young airmen locally reported to have arrived straight from U.S.S.R. during March 1956.

(c) Officers as well as airmen have been confined to camp. Local gossip attributes this measure to the station commander, following squabbles between officers and airmen when the latter objected to discrimination in favour of officers in February.

4. FUEL DELIVERIES

(a) Between 8 and 12 fuel tankers have arrived by rail at every weekend since the beginning of March, with an estimated total on each occasion of 240,000 litres. This is estimated to represent an increase of 25% on fuel supplies between December and February.

(b) Flying activity has also been heavier, mainly local flying.
